

Marine Resources Committee Mission Statement

As provided by ordinance, Marine Resources Committee shall administer and coordinate the shellfish conservation programs and any other duties required under the Ordinance; recommend to the Board of Selectmen how the money appropriated for shellfish conservation programs should be spent; administer and coordinate a survey of all clam flats to obtain and maintain current information on shellfish resources; cooperate with the Department of Marine Resources in carrying on experimental shellfish programs; prepare and promulgate a shellfish conservation plan; collect harvest data documenting local values of shellfish resources; and make an annual written report to the Town and the Department of Marine Resources.

Approved by the Board of Selectmen June 28, 2007
